PUBLISHING AND AUCTIONEERING

How we make the complex simple

For starters, we listen

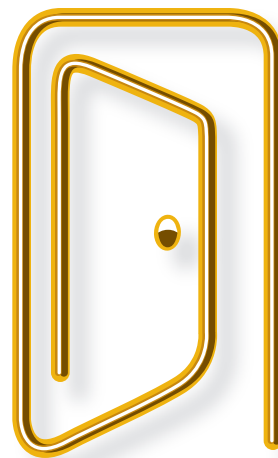

It's important that we understand your business model.

The more we can learn about how you do business, about your operations, about the challenges you face, the better we can adapt our operation to support yours. Our staff has the experience to know that the better we perform the more value we can bring to the relationship, and the more value is created in your business. We strive to assist in any way to make you successful and to help you grow your operation. There is no stronger bond in business than sharing success.

Our lines of communication are always open

RSVP is an independent company, free from bureaucratic encumbrances and accessible to you whenever you need us. We believe that

two-way communications go a long way in solving problems and preventing them. You can be confident that you can reach us whenever you find it necessary.

We are small enough to answer the phone and still large enough to support clients in 22 states with reliable service and straightforward communication. Making it easy for you to do business with us is a key value at RSVP. Keeping

the lines of communication open at all times is one way we support that value.

Simplifying the process

RSVP provides a wide array of comprehensive resources that include ad creation, scheduling, publication and vendor management, vendor payment processing and reconciliation and the working capital to keep the processes moving. What's more, we have the flexibility to shape these capabilities to fit your operating process. Well-equipped to deal with complex transactions, we maintain disciplined and well-documented processes, consistently executed and continuously monitored for effectiveness.

Our aim is to take your operations well beyond process improvement, helping you create more value for your business and better relationships with your customers.

An independent publishing and auctioneering company, RSVP helps customers improve efficiencies in foreclosure processing while providing working capital to conduct day-to-day activities.
